

# multi-purpose sport floor systems

WHERE THE RUBBER MEETS  
THE FITNESS FLOOR

# strong enough for fitness rooms, soft enough for church basements

Witness the performance and safety that high performance athletes need, and the safety and comfort for everyday living, all in one floor. From track meets to hosting graduation ceremonies, experience the toughness, versatility and cost-effective solutions of a Herculon polyurethane floor. This dual-durometer floor provides high uniformity of play and is extremely durable, with excellent tear and tensile strength.

- The greenest synthetic polyurethane floor on the market
- Solvent-free from the bottom layer to the top coat
- Hygienic and easy to clean
- Quick and cost-effective to resurface
- 14 colours available

## PERFECT FOR

- PRIMARY & SECONDARY SCHOOLS
- UNIVERSITY FIELD HOUSES
- HEALTH & ATHLETIC CLUBS
- CIVIC FACILITIES
- CHURCHES

# the many layers of a Herculan sport floor system

<b>SR</b>	Approved for spiked shoes
<b>RH</b>	Approved for wheelchairs and roller hockey
<b>TC</b>	Approved for indoor sports such as tennis
<b>PE</b>	Point elastic properties. EN14904 and 18032-2 tested. DIN-certified version is available
<b>ME</b>	Combined elastic properties. EN 14904 tested for all indoor sports
<b>RT</b>	Designed to overlay existing floor. Resurface cracked or worn sports floor
<b>MF &amp; MF 800</b>	Seamless, cushioned, multi-functional. EN 14904 tested for all indoor sports

## staying green

- 45% of Herculan products are made from the oil of the castor plant
- 45% of Herculan products are quartz, the second most abundant mineral in the Earth's crust
- Uses natural rubber from renewable and sustainable resources
- The manufacturing process uses minimal amounts of fresh water
- Water-based and solvent-free
- The manufacturing process does not contaminate land, ensuring it's safe for future use
- Sources raw materials from the closest location possible
- Every surface can be re-topped to greatly extend the life of the floor
- The floor is also completely recyclable
